AIMS AND SCOPE

Stork, Ibis and Spoonbill Conservation (SISC) is a peer-reviewed publication of the IUCN SSC Stork, Ibis and Spoonbill Specialist Group. SISC publishes original content on the ecology and conservation of both wild and captive populations of SIS species worldwide, with the aim of disseminating information to assist in the management and conservation of SIS (including Shoebill) populations and their habitats worldwide. We invite anyone, including people who are not members of the SIS-SG, to submit manuscripts.

The views expressed in this publication are those of the authors and do not necessarily reflect those of IUCN, nor the IUCN SSC Stork, Ibis and Spoonbill Specialist Group.

PUBLICATION COPY RIGHT

SISC is an Open Access publication, therefore does not charge authors, readers or their institutions for access to its contents. Articles accepted in SIS Conservation will be published online shortly after acceptance and the article proof will be mailed to the authors.
